

Elevation Profile - Mexico - Cuernavaca to San Cristobal de las Casas

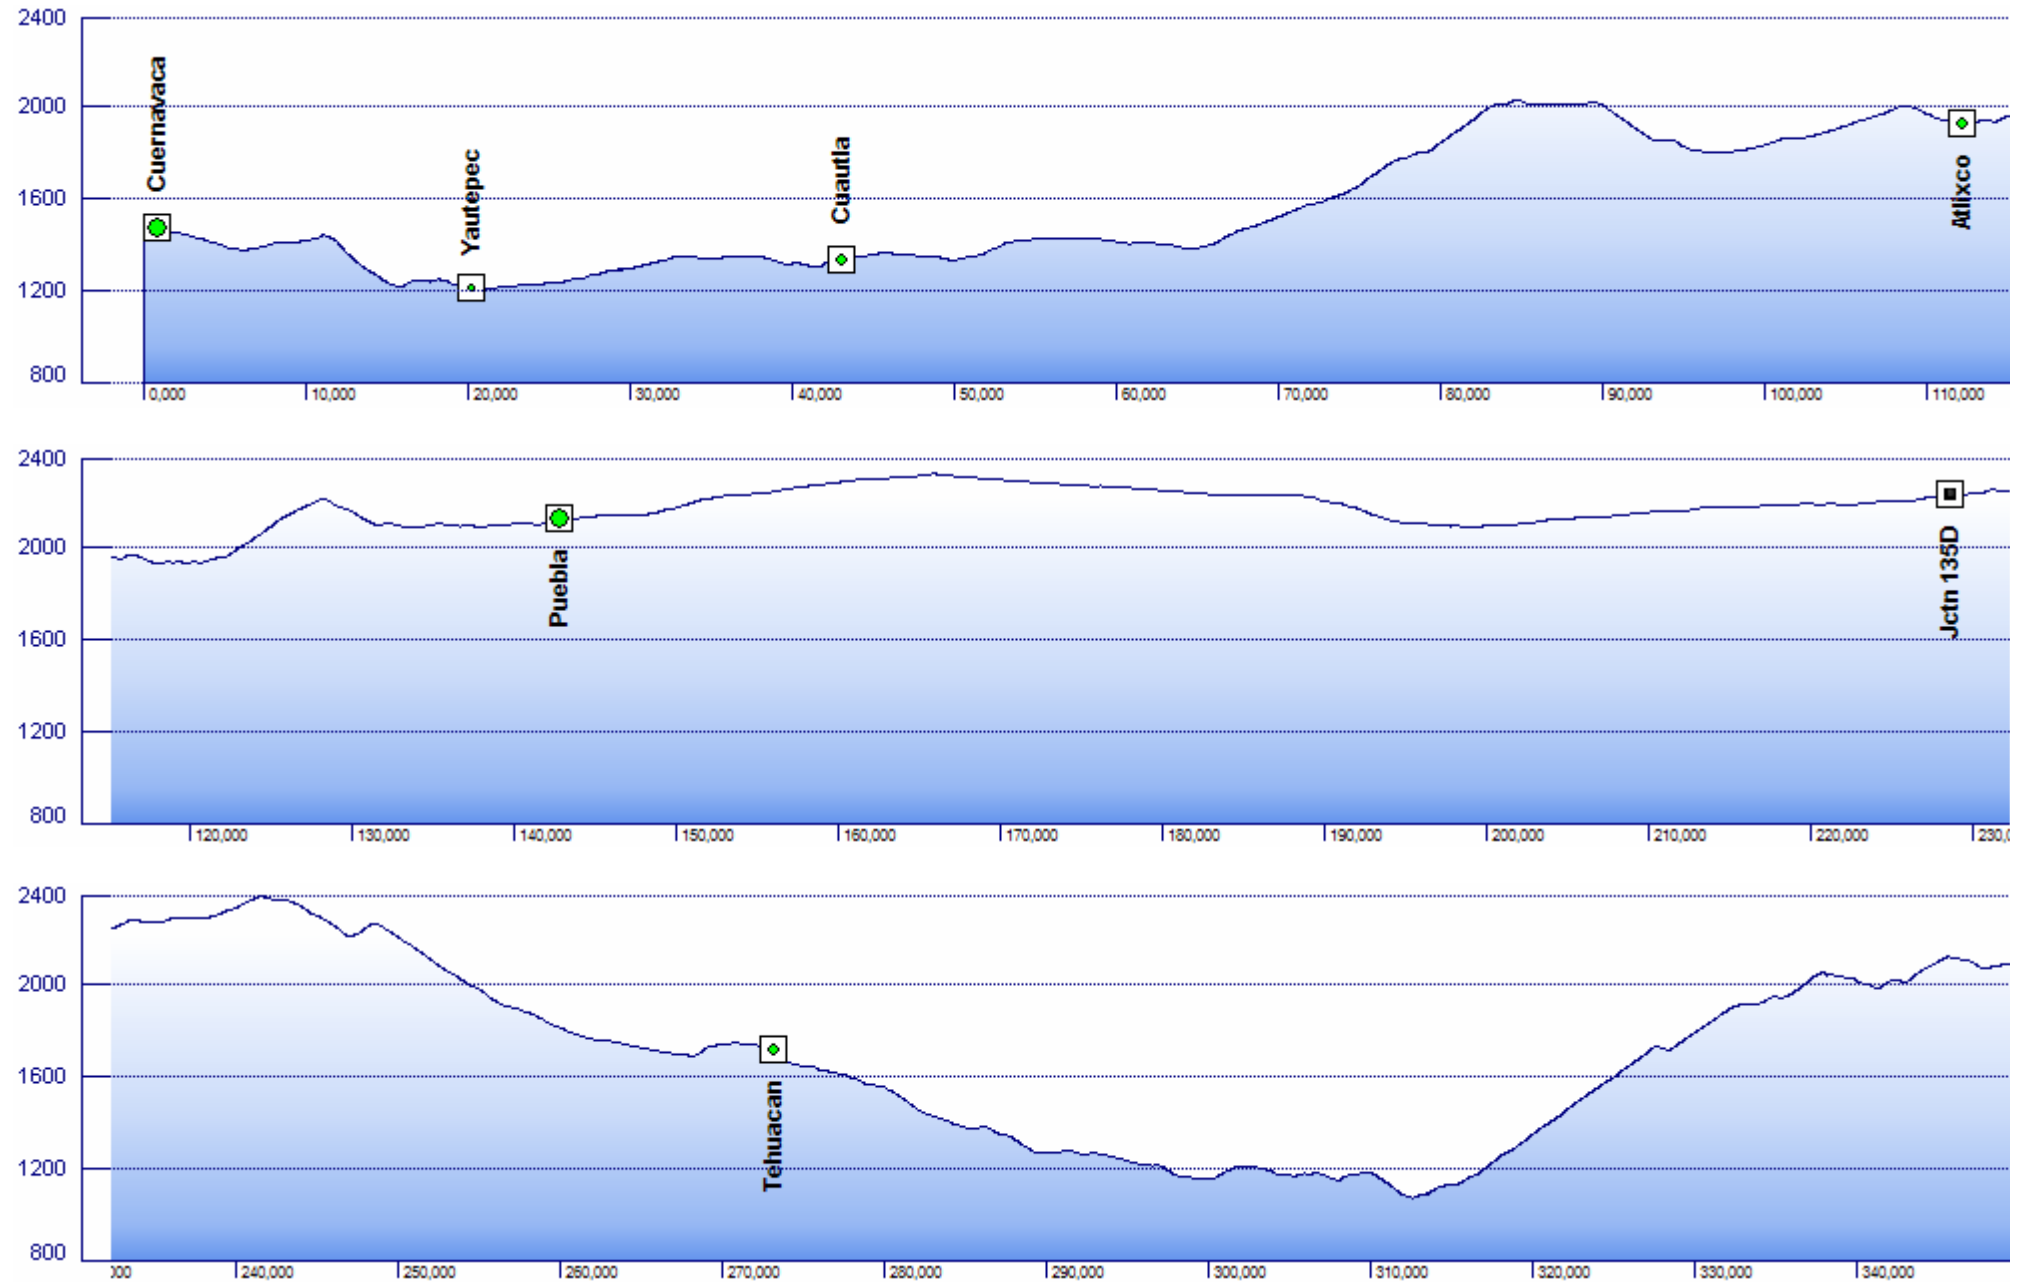

Routes: Cuernavaca to Cuautla: Cuota, then new Cuota Mex 190D to Puebla; Puebla to Oaxaca: Mex 150D and Mex 135D; Oaxaca to Tuxtla: Mex 190; Tuxtla to San Cristobal: new Cuota

Statistics: Length: 1090 km, av. ascent: 1036 m / 100 km

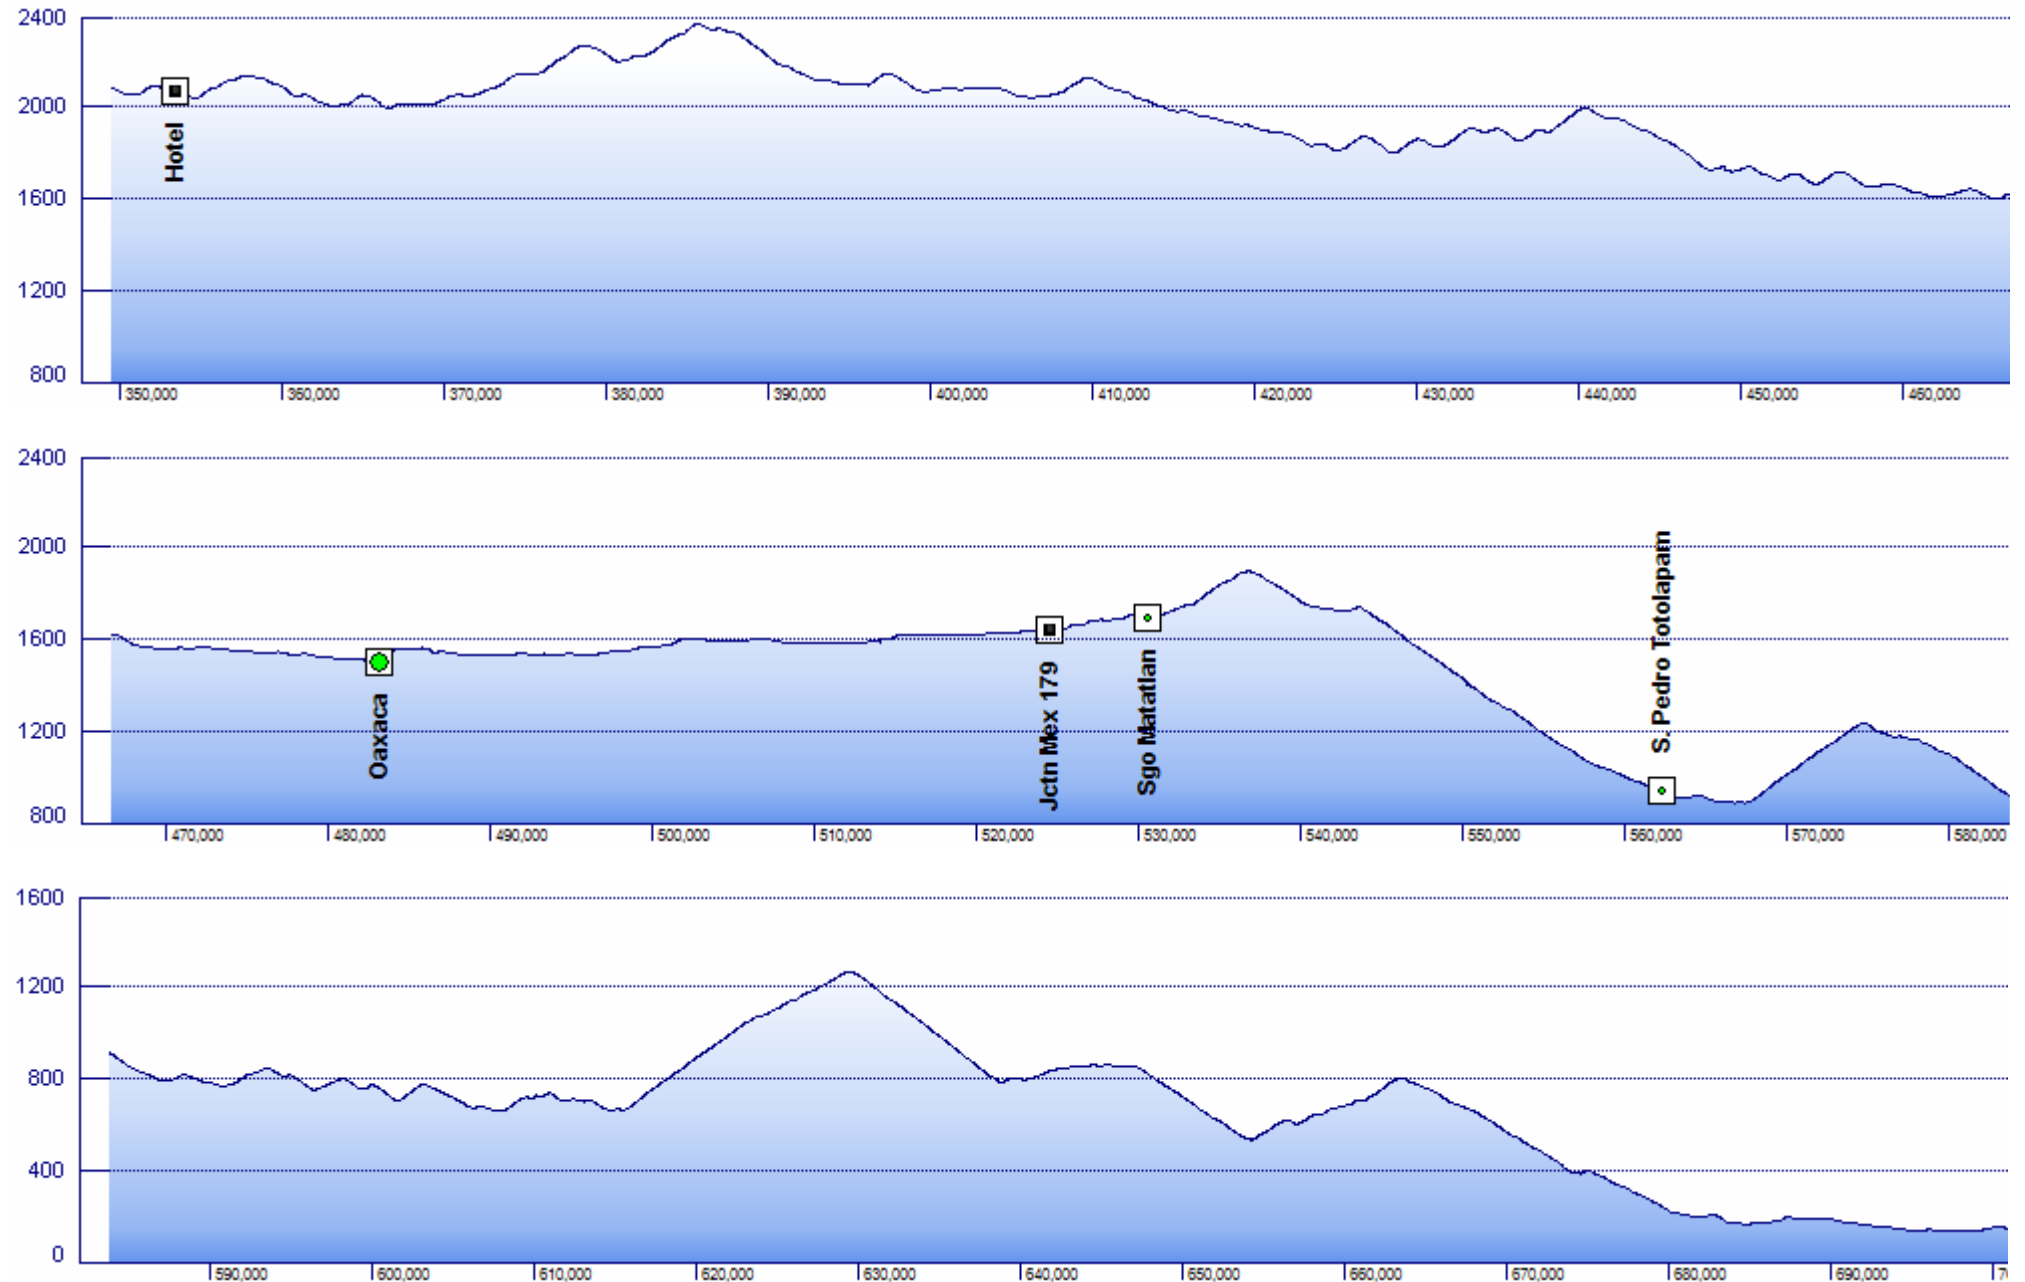

Comments: New Cuotas before Puebla and to Oaxaca save a lot of way. They are built straight through the countryside and therefore quite short but hilly. The new Cuota from Tuxtla to San Cristobal saves about 30 km and is super constantly rising along the mountain.
