

Elevation Profile - Bolivia - Challapata to Boarder Argentina

Route: Challapata - Potosí - Ticatica - Uyuni - Atocha - Tupiza - Villazon

Statistics: Length: 700 km, av. ascent: 1150 m / 100 km

Comments: Potosi to Uyuni will soon be paved.
We took the road in the riverbed before (recommendable) and after (not recommendable) Atocha. Therefore there might be some kilometers too much in the profile between Atocha and the Mine afterwards.
